UNIVERSITY
OF THE CITY OF NEW YORK

June 21st, 1934.

John W. Garrett, Esquire,
Baltimore.

Dear Sir:

I understand you have a magnificent collection of coins: for many years I have specialized in choice American Colonials, and a policy of always replacing a specimen when a better one came on the market, accounts for the unusual condition of my collection.

It is now necessary to dispose of it, and while I would prefer to sell it as a whole, realize it is hard to find a buyer, and also that an important collector like yourself would probably only be interested in individual specimens.

The Massachusetts silver series is the most nearly complete of any collection I know of, and many specimens are the finest known of the varieties.

Rosa Americana's are mostly uncirculated, even the 1733 Two pence, of which there are only 3 or 4 known, is uncirculated: Washington Half Dollar, Copper, is the finest known, also the Proof Naked Bust: Carolina Elephant uncirculated: Good Baltimore Groat uncirculated: Confederatio Inimica Tyrannio, Crosby Plate 7 #13 Very Fine, my Washington Confederatio is only Very Good: I merely mention a few, but if you are interested shall be glad to send a complete list. Hoping to have the pleasure of hearing from you, I am,
Yours very truly, Charles E. Blakely.

Coins

October 1st, 1934.

Mr. Charles E. Clapp,
Brookstone,
Bedford Hills, New York.

Dear Sir:-

I am not adding any
coins to my collection at the
present time, and in any event I
should not care to buy a collection,
as it would inevitably duplicate
many of my pieces.

Thank you very much,
however, for writing me.

Very truly yours,

file

RECEIVED OCT 11 1934
NEW YORK

October 2nd, 1934.

John H. Garrett, Esquire,
Baltimore, Md.

Dear Sir:

Thank you for your letter of 1st instant: I am quite willing to sell any specimens by themselves, and when you decide to add to your collection would ask you to kindly look over enclosed list of a few very rare ones: shall be glad to send you any on approval.

Yours very truly,

Charles E. Chapin.

P.S.:-

The Rosa Americana-Wood series is remarkable, and had hoped they could be kept together: there are 49 specimens, of which 41 are uncirculated, 7 extremely fine and 1 very fine.
